*\* The year group responses for your school are taken exactly as entered in the questionnaires. In some cases a small percentage may show up in year groups beyond those you would expect.*

*Additionally, where parents indicated they had children in more than one year group, the year group of the eldest child has been used for the purposes of this table.*

*\* Percentages are presented throughout the report. Where the number of respondents is small, figures need to be treated with a degree of caution in order not to misinterpret the findings.*

*\* Year groups above year 6 have been included so that middle schools could use one parent questionnaire with all of their parents.*
