Week 4 - Addition and Subtraction (Inverse Operations) - Answers

Answers

White Rose MATHS

1 Use the cards to make four different number sentences.

3,169	2,732	5,901

3,169 + **2,732** = **5,901**

5,901 − 3,169 = **2,732**

2,732 + **3,169** = **5,901**

5,901 − **2,732** = **3,169**

2 Use the cards to match the inverse calculations.

2,720 − 200 = 2,520	200 + 2,520 = 2,720	1,820 − 1,700 = 120
1,820 = 1,620 + 200	1,820 − 200 = 1,620	200 + 2,520 = 2,720
120 + 1,700 = 1,820	1,820 − 1,700 = 120	1,820 − 200 = 1,620

3 Circle the calculations that can be used to check 434 + 7,573 = 8,007

8,007 − 7,573 ✓

434 − 8,007

434 − 7,573

8,007 − 434 ✓

4 Amir works out 3,000 − 1,233 = 1,767
What calculation can Amir do to check it is correct?

1,767	+	**1,233**

Or any other valid answer.

5 Use an inverse operation to work out whether the calculation is correct.
Circle the correct answer.

3,449 − 359 = 3,190

CORRECT

INCORRECT ✓

6 Use an inverse operation to work out whether the calculation is correct.
Circle the correct answer.

1,271 + 4,713 = 5,984

CORRECT **INCORRECT**
