

Name: _____

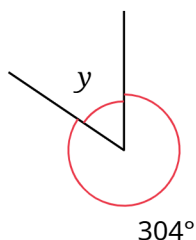

Date: _____

- 1 Work out the size of the unknown angle.

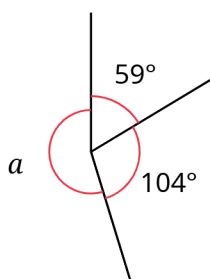

$$x = \boxed{}^{\circ}$$

- 2 Work out the size of the unknown angle.

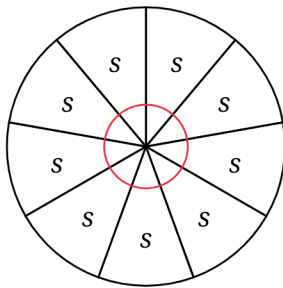

$$y = \boxed{}^{\circ}$$

- 3 Work out the size of the unknown angle.

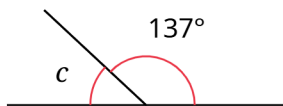

$$a = \boxed{}^{\circ}$$

- 4 Work out the missing angles.

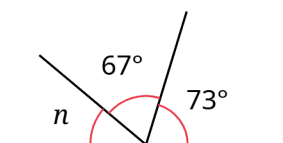

$$s = \boxed{}^{\circ}$$

- 5 Work out the size of the unknown angle.

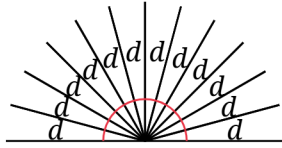

$$c = \boxed{}^{\circ}$$

- 6 Work out the size of the unknown angle.

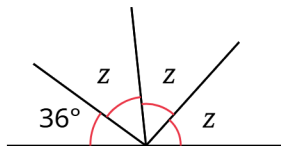

$$n = \boxed{}^{\circ}$$

- 7 Work out the size of the unknown angles.

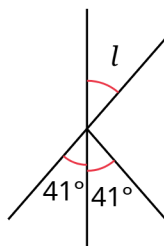

$$d = \boxed{}^{\circ}$$

- 8 Work out the size of angle z .

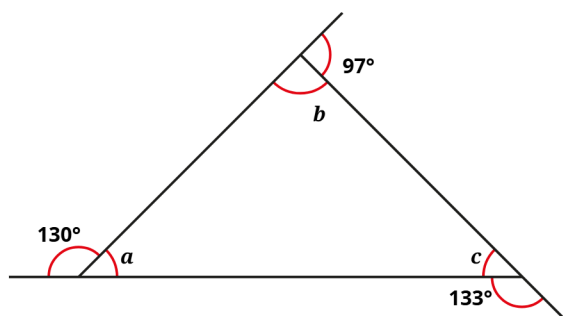

$$z = \boxed{}^{\circ}$$

- 9 This diagram is made from three straight lines. Work out the size of angle l .

$$l = \boxed{}^{\circ}$$

- 10 Work out the angles in the triangle.

$$a = \boxed{}^\circ$$

$$b = \boxed{}^\circ$$

$$c = \boxed{}^\circ$$
