Name: _____ Date: _____

1 Complete the multiplication.

$$\frac{1}{3} \times 2 = \frac{\square}{\square}$$

2 Complete the multiplication.

$$\frac{\square}{\square} = \frac{2}{8} \times 3$$

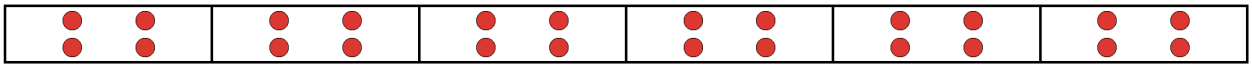
3 Complete the multiplication.

$$\square\frac{\square}{\square} = 3 \times 7\frac{1}{5}$$

4 Complete the multiplication.

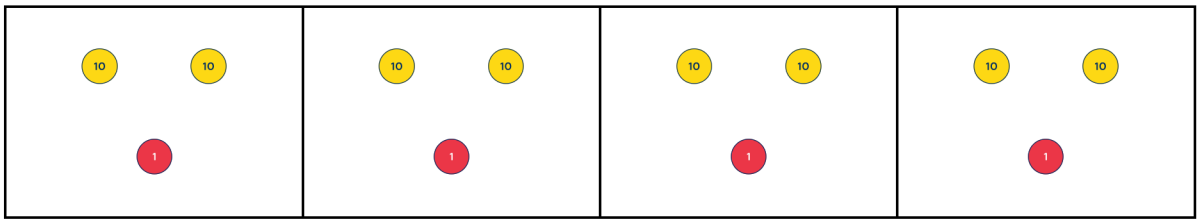
$$\square\frac{\square}{\square} = 2 \times 3\frac{1}{3}$$

5 The bar model shows 24 counters shared into 6 equal groups.
Use the bar model to help complete the calculation.



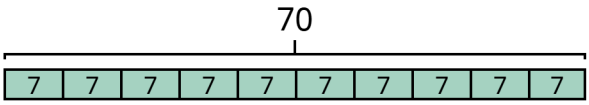
$\frac{4}{6}$ of 24 = $\square$

6 Use the bar model to find $\frac{3}{4}$ of 84



63 **84**

7 Use the bar model to help complete the calculation.



$\frac{10}{10}$ of 70 = ☐

8 Use the card to complete the calculation.

☐ = $\frac{2}{6}$ of 330

48

110

54

9 Use the cards to sort the calculations into the table.

$\frac{7}{10}$ of 30	$\frac{1}{10}$ of 160	$\frac{1}{2}$ of 32	$\frac{1}{2}$ of 42

Equal to 16	Equal to 21
