

1 Complete the sentences.

There are **3** thousands,

6 hundreds,

4 tens and

0

ones.

The number is

3,640

2 What number is shown?

Thousands	Hundreds	Tens	Ones

5,527

3 Complete the number sentence.

$$4,362 = \boxed{4,000} + \boxed{300} + \boxed{60} + \boxed{2}$$

4 Draw counters to represent 5,241

Thousands	Hundreds	Tens	Ones
			

- 5 Here is a place value chart.

Thousands	Hundreds	Tens	Ones
			

What number is shown? **5,055**

What is 10 less than the number?

- 6 Use base 10 to make the number that is 1,000 less than 9,455

Use these base 10 pieces:

- 7 Circle the numbers on the Gattegno chart to show 6,773

1,000	2,000	3,000	4,000	5,000	6,000	7,000	8,000	9,000
100	200	300	400	500	600	700	800	900
10	20	30	40	50	60	70	80	90
1	2	3	4	5	6	7	8	9

- 8 Complete the part-whole model.

Any possible combination of numbers that sum to: 8,051

- 9 Complete the number sentence to match the image.

$$4,379 = \boxed{4,000} + \boxed{300} + \boxed{30} + \boxed{49}$$

- 10 What is 10 more than 2,798?

3,798

1,798

2,898

2,698

2,808

2,788

- 11 Use the cards to complete the sentences.
Each card can be used more than once.

1	10	100	1,000
---	----	-----	-------

7,822 is 1,000  more than 6,822

7,225 is 10  less than 7,235

- 12 Match the numbers with the statements.

47 hundreds	4,700 	47
40 tens + 7 ones	407 	407
47 tens	470 	470
47 ones	47 	4,700
