

1 Tick the shapes with a vertical line of symmetry.

2 Tick the shapes with a correct vertical line of symmetry.

- 3 Draw a closed shape with a vertical line of symmetry.

Any valid shape with a vertical line of symmetry.

- 4 The diagram shows half a shape and a line of symmetry. Complete the shape.

- 5 The diagram shows half a shape and a line of symmetry. Complete the shape.

- 6 The diagram shows half a shape and a line of symmetry. Complete the shape.

- 7 Circle all of the squares.
What is the name of the shapes that are left?

The remaining shapes are circles.

- 8 Sort the shapes in order of the number of vertices.
Start with the most number of vertices.

- 9 Circle all of the shapes with less than 6 vertices.

- 10 How many faces does the shape have?

4

- 11 Circle the shapes with a curved surface.

- 12 Circle the name of the shape described in the label.

1 circular face and
1 curved surface

triangular prism

cone

hexagonal prism

pentagonal prism
